Alcohol Control Zone

The city council is now embarking on a formal consultation for an alcohol Control Zone, when our Labour MP suggested a cumulative impact policy be applied which would deter future off licenses we responded this was not the solution to the real problem of street drinking your Liberal Party Councillors requested a street drinking Ban

The police and council initially suggested a smaller area along West Derby Road but we insisted both south of West Derby Road and the Rocky Lane Area was included, see the extended area

Liberal Party Campaigner Berni Turner adds "working with local businesses I know its vital we make the shopping area clean, safe and welcoming, the control ban promoted by our

Liberal Councillors will help secure Tuebrook's shopping area we also need more monies to continue the pavements improvements"

Labours Dishonest Election Gimmicks

Over the years Labour has made some dishonest campaign claims during the election just to gain votes here just a few

2014 Claimed to be campaigning to reopen **Tuebrook Police station** after their Police Authority Closed the desk, immediately after the their Polcie Commissioner ruled out any question even re-opening it for a few hours at a public meeting in St Andrews

2013 they claimed to be campaigning to open **Seamans Orphanage / Hospital** - we met the managers and supported, an Arts Exhibition there, the Heritage Open Day and the planning consultation and approval . The Site manager is yet to meet the MP claiming to work to bring the site back into use

2012 Mayor Anderson pledged he would never get rid of the weekly bin collection one year later he was brining in fortnightly collection

2011 they claimed to be campaigning for funds to support **Tuebrook Community Centre Marlborough Road**, they didnt raise a single penny but Cllr Steve Radford fundraised for new bathrooms, disabled bathroom and urgent roof repairs over 4 years

Now Labour Claim they are gainst the government cutbacks - hold on **Ed Milliban has stated he will seek a further reduction of 500 million pounds**
