**WHAT'S INSIDE:**

Trafford Liberal Party Launches. A Liberal Voice for Timperley.

**Taxed for being GREEN?**  
How silly is it that? The green waste is a stealth tax.

Can you get involved in matters that are important to you?

# TAYLOR IS BACK

Neil Taylor has announced his decision to come back and help local people in Timperley Ward. The decision to return comes after Neil believes he started to miss the job of being the Councillor here in Timperley.

## Neil says:

"I really missed being the local Councillor here and that's why I've come back into politics to fight for you.  
"I hope you will give me the opportunity to serve you as I did between 2006 and 2014."  
I am keen to hear about any local issues that you have.

Please, do not hesitate to get in touch.

## GREEN BELT UNDER THREAT

"Your Greenbelt is under threat. Be under no illusion, if it's green, and if it's land the plan is to build and develop on it. Yes, we need more housing, but to eradicate our green belt is simply wrong. Brown field, and other waste ground, must take preference for development. The proposed development of the "Timperley Wedge" must be re-considered."

Neil says: "This green area between the airport and Timperley are the lungs that are needed to protect the air that we breathe, and to give our children a safe and green area to grow up in. I would really like to know your views on the plans to develop the green belt and take away the green space that should be left for the next generation."

THE LIBERAL PARTY  
TRAFFORD

The Liberal Party, a brand new start here.

**Neil Taylor** comments: "After much soul searching, I was looking at a way forward on the quality of life, and how things can be made that little bit better where we all live, a bit like going back to my local roots. Unlike the Lib Dems, we accept the Brexit referendum, and now is the time to campaign to protect our nationals from all parts of the globe. The Article 50 negotiations are vital, and we need a more Liberal Brexit over the next couple of years."

The Lib Dem Coalition caused a certain amount of confusion and chaos, but **The Liberal Party** stood by

## Help the homeless

Here are we in 2017 and we see the homeless rough sleepers on our streets. So wrong in society and Neil Taylor is already doing something about this and taking step by step changes to make things better for those less fortunate, please come and help us.

## The Green bin stealth tax

I have heard it called "OUTRAGEOUS", What a silly idea to tax people like you and me who want to have a green and safe society. To be green your Conservative run Trafford Council have now introduced a GREEN tax. This is dismal and very non-green and needs to be scrapped. The collection of green garden waste, if done in a appropriate way, need not cost this local authority any funds. If anything with some joined up thinking and with a creative imagination, if could actually become an income generator.

# I NEED YOUR HELP

Can you help me to get out some leaflets where you are, perhaps display a window poster during election time or put up a board in your garden?

We get no funding at all, unlike the Conservatives, funded by the business community, Labour, funded by the Trade unions, and the local Lib Dems income from central office and other local sources. Could you help me to deliver a few leaflets where you are. Your help really could make a difference. Come and join the Liberal Party and become a active member. Admin, Social media or any generic help really will make a difference.
