

# Newsham Adult Education Closure Challenged

Liberal Party Cllrs Steve Radford and Kevin Morrison have questioned the criteria for closing Newsham Park Adult Education Centre as its a centre of excellence delivering a vast range of skills courses.

**“If the Council does press ahead with closure we have offered local venues like Tuebrook Hope Centre and**

**Stoneycroft URC to deliver courses for local people”** added Billy Lake, one of our Tuebrook Hope Centre Trustees - **“we are always looking at ways to protect local courses and activities”**.

## Community Skips

Week-in-week out Cllr Steve Radford, Kevin Morrison and Billy Lake are out organising community skips and helping neighbours to take items to them.

Neighbours in Labour Ward’s around us are envious that they don’t get the same service as their Labour

councillors can’t be bothered. Residents in Fairfield had to organise a protest meeting to get their councillors to do a street inspection and clean-up.

**There is only one team working here all year round and providing community skips all year round - not just when an election is due.**

# “Its a back entry NOT A DOG’S TOILET” speaks out Billy Lake

We are appalled at the number of entry’s all over Tuebrook where dogs are being allowed to roam and use them as a dogs toilet.

This is illegal and a gross danger to public health.

If you know who is responsible, let us know or report it direct to the Council on 0151 233 3000.

## The Buddleia Plant can seriously damage your property by forcing bricks apart

“We having been reporting vacant properties throughout the area in Gloucester Rd North, Month Roads and Victoria Road to the council to have the landowners remove this weed before serious damage is done to their homes and neighbours homes - if you have this near your walls we recommend you dig it out” **Billy Lake.**
