It's Time for a Change for Everton with Angela Preston

“As a parent with three children I know how vital getting young people into quality education and employment opportunities is. With my business background I would bring first-hand experience to the community.”

“I have been inspired by the work of Liberal Councillors led by Cllr Steve Radford, who have shown how leadership and support can be given to a community”

“Over the last few weeks I have toured the Everton Area reporting horrific dumping from fridges dumped by the bus stop in Everton Road, furniture dumped in Perth Street, refuse dumped on waste land in Whitefield Road and Thirlmere Road and mattresses dumped in Churton Court”

“For years Liverpool’s Council has stumbled from one scandal to another. Like so many of you I was brought up in a Labour tradition and have been a Labour Party member. Every election we were expected just to show up for Labour Candidates, many of whom we had never known or even met.”

Angela Working to Clean Up Everton

“Everton needs a Councillor who has the time and dedication to walk around the area and support local people. A Councillor who understands the local issues and is on hand to take action. A Councillor who is visible and approachable.”

“That is why I am standing as Liberal Party Candidate. To bring real Community Representation to the Everton Ward”
