*Dear Neighbours*

Can I emphasise this is a Local Election and we will be voting for a **Local Councillor Not a Government.**

We all know the horrendous press Liverpool City Council has had for abuse of powers, waste of public funds and suspect property deals.

So as we go into this election can I make it clear that the Liberal Party, Community Independents and Independents from Liberate Liverpool and Reset Liverpool are working together to form an alternative to a Labour Party who have failed our city and betrayed the people who voted for them.

Working together we will strengthen independent external scrutiny of council decisions. When we have cleaned up Liverpool City Council we will be in a better position to demand Government give Liverpool a better deal.

Locally I will support

- **Delivering of Community skips and clean up days throughout the year**
- **Promote health and community initiatives to take the pressure of GP surgeries**
- **Work with council officers and the community to reduce the level of vermin reports across Wavertree Garden Suburb**
- **Work with highways to improve and repair of local roads**
- **Fight to protect our local parks and enhance the environment with more planting initiatives in Northway Park**
- **Work with our local Children's Centre, Schools and advisory agencies to assist families in hardship**

With your support on May 4th we can give Liverpool a better way forward I am determined to get the best for our community and city.

*Clr Alan Tormey*

Liberal Party Councillor for Re-Election

*Warning for voters, some candidates who have opted to hide their addresses from the ballot have been "parachuted in", one candidate even comes from Widnes*

**There is a postal voter helpline: 0151 233 3028**
